SKILLS

- Languages: Python, Java, JavaScript, C, C++, SQL
- Frameworks: React, Next.js, FastAPI, Node.js, HTML, CSS, Tailwind
- AI / ML: Machine Learning, OpenCV, MediaPipe
- Cybersecurity: Networking, Ethical Hacking, Blockchain
- Tools / Platforms: Docker, Git, Vercel, MySQL, PostgreSQL, Arduino, ESP32
- Soft Skills: Communication Skills, Team Leadership, Public Speaking, Problem Solving, Innovation, Technical Mentoring

EXPERIENCE

Full Stack Web Developer ThinkWise Careers	2026 – Present
• Designed and shipped the official company website end-to-end. • Built scalable frontend and backend features with modern React and API layers. • Owned deployment pipeline, monitoring and ongoing maintenance. • Partnered directly with company leadership on product direction and UI/UX.	
Full Stack Web Developer The Higher Education Network (THEN)	2026 – Present
• Developed education-focused web platforms serving national audiences. • Built responsive, accessible applications across devices. • Collaborated with stakeholders to translate strategy into product.	
Founder JEE.Hub — EdTech Startup	2023 – 2025
• Founded and scaled an EdTech platform for JEE aspirants nationwide. • Generated up to ₹1.5 Lakh / month in recurring revenue. • Led product, marketing, operations and long-term strategy.	
Freelance Software Developer Maharashtra Police Projects	Freelance
• Built a face-recognition crime-investigation system to search uploaded photographs against a database and assist with identification from CCTV footage. • Built a Call Detail Record (CDR) system for processing and analyzing call-record information.	

PROJECTS

AI Rehabilitation Platform	React · FastAPI · Python · OpenCV · MediaPipe · SQL
• AI-assisted rehabilitation platform with doctor, patient and admin portals, exercise tracking, analytics and computer vision.	
LPU CodeViz	React · Vite · Tailwind · JavaScript
• Interactive academic visualization platform for university students.	
Smart Pharmacy System	AI · Automation · Inventory
• AI-powered medicine management with digital prescriptions, inventory and automation.	
Biometric EVM	Biometrics · Security · Embedded
• Secure voting machine leveraging biometric authentication and fraud prevention.	
Touchless Appliance Control	Arduino · Ultrasonic · IoT
• Ultrasonic-sensor driven, hands-free appliance control for smart homes.	
Rehabilitation Hand	Embedded · Sensors · Assistive Tech
• Assistive embedded system supporting rehabilitation through sensor-driven automation.	
Non-Invasive EEG-Based Home Control System	Published Indian Patent
• Brain-controlled IoT automation using EEG signal processing and assistive neurotechnology.	

ACHIEVEMENTS

- JEE Main — 99.48 Percentile
- JEE Advanced — AIR 349
- Cognitia Hackathon — 1st Place
- Nanded Hackathon — Individual 1st Rank; Team 4th Place
- InnoTeck 2026 — 1st Runner-Up, Lovely Professional University — Grand Innovation-Based Event
- Government of India — INSPIRE Award
- Indian Patent Office — Published Patent

CERTIFICATIONS & RECOGNITION

- Computer Programming — 150 Hours · Neo Colab / An NIIT Venture · 18 Jan 2026 – 20 May 2026
- Community Development Project · Times Foundation × Lovely Professional University
- Infosys Springboard — Full Stack — React
- Infosys Springboard — Cyber Security
- Infosys Springboard — Artificial Intelligence

EDUCATION

Lovely Professional University	Punjab, India
• B.Tech Computer Science Engineering; Honours in Cyber Security & Blockchain	
2025 – 2029	

LEADERSHIP

- Startup Founder · Technical Mentor · Public Speaker · Team Leadership · Innovation · Problem Solving

LANGUAGES

- English · Hindi · Marathi

INTERESTS

- Artificial Intelligence · Cybersecurity · Brain-Computer Interfaces · IoT · Startups · Research · Innovation
